

# CITY OF SEASIDE POLLINATOR HABITAT LAB

Seaside's Environmental Committee, FOSPA, Sustainable Seaside and other community volunteers are involved in the pollinator lab.

These plants will be here for a few months to grow bigger and stronger before they are planted in Seaside parks and cared for by pollinator habitat stewards. They will attract pollinators, like monarch butterflies.

If you want to be involved, we will be hosting some events in the near future, so look for updates on Facebook: Seaside Community Development or email [brocha@ci.seaside.ca.us](mailto:brocha@ci.seaside.ca.us)

Please help keep these plants safe for butterflies and other pollinators in our community.
