

3.28.17

MANIFEST

Welcome to the Manifest; a semi-weekly summary that cares more about brevity than grammar, and what is about to or could happen in Seaside than what did or didn't. Contributions to future editions are welcome at cmalin@ci.seaside.ca.us.

- ▣ New Playground Opens Today – The new playground at Laguna Grande Park officially opens at 10:30 today. Thanks to staff for their extra effort to make the new fun stuff for Seaside kids possible. I recommend the big slides, as both a kinetic and visual experience:

- ▣ Special Council Meeting **5:00 PM** Wednesday On Sanctuary City Resolution – The follow-up meeting to the March 2 Study Session on “sanctuary cities” starts at **5:00 PM**.

There's a draft resolution (attached, with the staff report) that has 14 numbered “whereas” clauses and 12 lettered “now, therefore” statements. Here's the thing: other than the lyrics to The Replacement's “Can't Hardly Wait”, there does not exist a perfect string of letters, words and phrases in the entire span of human history. So, the lettering and numbering are intended to allow the public and Council to reference parts and include, exclude or revise them. The idea that there's one perfect summation or one single constitutional interpretation is the kind of thing that leads to (wrote myself into a corner here) a series of rushed Executive Orders.

I'm not the City Attorney and I couldn't predict the future even if I was. But I know for certain that American ideals of diversity, inclusion and equality are the basis for this nation's success. The public comments from March 2 are attached.

- 📄 Not Much Of A “Free Week” – The day after Wednesday’s Special City Council Meeting on the Sanctuary City Resolution, there’s another Special City Council Meeting , this one a Joint Planning Commission / City Council Meeting at the Oldemeyer Center, starting at 6:00 PM. The meeting is another in a series of joint meetings on the progress of the General Plan Update.
- 📄 L & G – The ballot measures needed letters. There’s no small number of combinations. We picked L for the sales tax measure because “L” is the first letter in the word “Local”, and local decision-making and retention of revenue is important. We picked “G” to represent “green business”, which legalization via Prop 64 is bringing to California (we’re aware it could also represent “grass”).

Except for logistic and inside government nerd info, don’t look to future Manifests to expend much ink on the ballot measures. They are on the ballot. The public gets to choose. The Manifest doesn’t exist to encourage a vote one way or the other.

- 📄 Staff Reports – Two SFD reports, and one for Rec, attached.
- 📄 BBQ AOK – The Laguna Grande Park bbq is ready for summer grillin. See attached.
- 📄 You Go, Layne – With the cities of Marina, Del Ray Oaks (we think), Sand City and Seaside sharing one representative on the Operating Board of the Monterey Bay Community Power Authority, Marina City Manager Layne Long asked me and Todd and Dino if we had any objection to him serving the first term as the staff representative. He’s got prior electric utility experience and I have no shortage of other things to do so ... sure, have at it, Layne.
- 📄 Save The Date – There’s a Police Activities League Basketball Banquet planned for April 14 (see attached flyer).
- 📄 Speaking of Inside Government Nerd – My employment contract says there will be evals, and there was one. I’m still here, so ... um, it went ok. My employment contract also says I need to submit a “written statement of accomplishments for the preceding year, and planned work objectives for the forthcoming year”. If you’ve always wanted to participate in a city manager evaluation (you’re weird), there’s two pages attached at the end. Call, stop by the office, maybe chat me up while I’m having breakfast with my son in Arizona ... however you like ... I’m open to input.

Have a great week. I’ll be gone Thursday – Monday.

**CITY OF SEASIDE
STAFF REPORT**

Item No.:

TO: City Council

FROM: Craig Malin, City Manager

BY: Craig Malin, City Manager

DATE: March 27, 2017

SUBJECT: Sanctuary City Resolution

PURPOSE

To review a “Sanctuary City” resolution drafted as a follow-up to the March 2 Study Session on Sanctuary City policies and practices.

RECOMMENDATION

That the City Council review the draft resolution, receive input, and amend the resolution as appropriate prior to voting upon it.

BACKGROUND

On March 2, the City Council conducted a Study Session on “Sanctuary City” policies and practices. The Council received a staff presentation, listened to hours of public input, and directed staff to return with a draft Sanctuary City resolution.

The attached draft resolution seeks to honor the spirit of the vast bulk of the public comments offered at the March 2 Study Session, and do so within a framework consistent with the rule of law and enduring American values of personal liberty, equality of opportunity and inclusive social mobility.

The “whereas” clauses are numbered for ease of reference by the Council and public, and seek to establish the basis for appropriate and justifiable action by the City Council, with Seaside’s special place in the history of America’s long march to freedom appropriately noted. While some might argue #14 may be superfluous to the resolution, ending the numbered whereas clauses with a self-evident truth ties the document to our nation’s first expression of ideals.

The “now therefore” statements, setting forth the stated policy of the City Council, are lettered for sake of reference by the Council and public. They are intended, generally, to build from policy statements that are presumably within the Council’s consensus to those which may or may not be. As discussed at the March 2 Study Session, Clause A, establishing Seaside as a “Sanctuary City”, is essentially symbolic in nature. Clauses B – G are a mix of symbol and past or best practice, Clauses H and I are responsive to the recent change in federal focus and Clauses J and L are requests of federal officials. Clause K is a specific direction to the City Attorney which the Council may or may not desire to include in the final resolution.

Staff will be prepared to review the draft resolution with the City Council at the May 29 Special Council Meeting. The policy directives of the resolution are the clear purview of the City Council. With recent reports of ICE targeting declared Sanctuary Cities and current federal administration efforts to punish communities for the wholly American act of welcoming immigrants, adoption of the resolution, or even having the discussion, carries risk.

Ultimately, the greater risk is to abandon principle and common human decency.

FISCAL IMPACT

Should the City Council direct policy changes which DHS Secretary Kelly becomes responsive to, the fiscal impact may become significant.

Grandson of Immigrants

RESOLUTION NO.17-__

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SEASIDE

DECLARING SEASIDE A SANCTUARY CITY

[1] WHEREAS, The United States of America was founded to secure life, liberty and the pursuit of happiness, and;

[2] WHEREAS, Every signatory to the Declaration of Independence and United States Constitution was either foreign born or descended from immigrants, and;

[3] WHEREAS, The United States of America's success has been founded on and sustained by successive waves of immigrants who leave all they and their families have ever known to secure the blessings of liberty and personal industriousness in a nation ever stronger for their contributions to it, and;

[4] WHEREAS, While immigration law and policy is a clearly federal responsibility which the City of Seaside has previously urged the President of the United States and Congress to comprehensively reform with Resolution 2013-31, the long march of liberty, begun at Lexington and Concord in 1775, has and will always be fought by citizens in our nation's cities, towns and villages, and;

[5] WHEREAS, Communities serving as waypoints on America's long march of liberty include human rights and consent of the governed at Gettysburg, worker's rights at Pullman in Chicago, civil rights in Selma and gay rights at Stonewall in New York, and;

[6] WHEREAS, The City of Seaside proudly served as a waypoint in America's long march of freedom as home to Fort Ord, America's first integrated military base, and;

[7] WHEREAS, The 1.7 million soldiers trained at Fort Ord, deployed to every corner of the globe over the life of the base, ably served this nation and inspired freedom seekers everywhere as a unifying force of personal liberty and constitutional democracy, without regard to race, ethnicity or nation of origin, and;

[8] WHEREAS, The City of Seaside's unique contributions to America's long march of freedom are such that is a wonderfully distinctive sanctuary of inclusion and diversity; a community with thirty percent of its citizenry foreign-born; a community pulsing with the hard work and ambition of first and second generation Americans; a community blessed with veterans who've worn the flag of freedom on their uniforms, and;

[9] WHEREAS, While respecting the federal government's primary responsibility for immigration law, policy and enforcement, a fundamental precept of local public safety is a foundational sense of trust between local police forces and the citizens they serve, and;

[10] WHEREAS, While the Seaside Police Department specifically adheres to 8 U.S. Code 1373, it does not, nor is it prepared to, nor is it authorized to, serve as a federal police force for immigration purposes, and;

[11] WHEREAS, The Seaside Police Department's mission is "to provide quality police services, in partnership with our community, to enhance and maintain a safe environment", and;

[12] WHEREAS, The maintenance of a safe environment is a primary City responsibility, and one that can only be secured with absolute trust between its Police Department and citizens it serves and comes into contact with, and;

[13] WHEREAS, As Executive Order 13768 has caused uncertainty, division and fear, all of which are counter-productive to the maintenance of a safe environment within the City of Seaside, it is appropriate and necessary for the City Council of Seaside to affirmatively state the City's principles and direct the City's policies, and;

[14] WHEREAS, it is self-evident that the politics of division and fear are themselves counter-productive to the long march of liberty and freedom on which the United States was founded and has long endured.

[A] NOW, THEREFORE, BE IT RESOLVED, That the City Council of the City of Seaside does hereby proclaim Seaside to be a Sanctuary City, and;

[B] BE IT FURTHER RESOLVED, That Seaside is a sanctuary for inclusion, diversity, personal industry and the rule of law, consistent with the founding ideals and documents of this long great nation, and;

[C] BE IT FURTHER RESOLVED, That the City Council declares Seaside to be a Sanctuary City in honor of the nearly two million soldiers who trained at Fort Ord and went on to valiantly defend the blessings of liberty anywhere they were threatened, and;

[D] BE IT FURTHER RESOLVED, That Seaside Police Officers, sworn to uphold the U.S. Constitution against all enemies, foreign and domestic, continue to act in accordance with 8 U.S. Code 1373 as they continue to serve on the front lines of public safety, and;

[E] BE IT FURTHER RESOLVED, That the Seaside Police Department continue to build trust within the community by refraining from asking or recording information regarding immigration status or nation of origin in routine police interactions, and;

[F] BE IT FURTHER RESOLVED, That City staff review confidentiality policies to ensure that eligible individuals are not deterred from seeking services or otherwise engaging in the civic life of the community based on immigration status or nation of origin, and;

[G] BE IT FURTHER RESOLVED, That no agreement under Section 7(b) of Executive Order 13768 shall be entered into without the specific approval of the Seaside City Council, and;

[H] BE IT FURTHER RESOLVED, That, consistent with law and respecting federalism as a foundational matter, no City of Seaside funds, facilities, equipment or personnel shall be directed to federal immigration enforcement activities under Executive Order 13768, and;

[I] BE IT FURTHER RESOLVED, That, consistent with law, Seaside Police Officers shall require a judicial warrant prior to detaining an individual or in any manner prolonging the detention of an individual at the request of U.S. Immigration and Customs Enforcement (ICE) or Customs and Border Protection (CBP), and;

[J] BE IT FURTHER RESOLVED, That the Seaside City Council requests ICE and CBP personnel to be clearly identified while working within City limits and further requests ICE and CBP personnel refrain from any custodial actions within necessary and sensitive public areas of the community including, schools, parks, libraries, local public buildings or places of worship, and;

[K] BE IT FURTHER RESOLVED, That the City Attorney review the status of complaints for declaratory and injunctive relief filed in response to Executive Order 13768 in the United States District Court, Northern District of California, and provide a recommendation to the City Council on whether to join any such action, and;

[L] BE IT FURTHER RESOLVED, That the Seaside City Council restates its request that the President of the United States and Congress undertake comprehensive immigration reform, consistent with the inclusive ideals of the nation, and honoring the commitment, hard work and bravery of all immigrants yearning to build bright and law-abiding futures for families under the blessings of American liberty.

PASSED AND ADOPTED at a Special City Council meeting duly held on the 29th of March, 2017, by the following vote:

AYES:	COUNCIL MEMBERS:
NOES:	COUNCIL MEMBERS:
ABSENT:	COUNCIL MEMBERS:
ABSTAIN:	COUNCIL MEMBERS:

Ralph Rubio, Mayor
City of Seaside

ATTEST:

Leslie Milton-Rerig, City Clerk

Mayor Rubio invited comments from the public.

- A resident thanked City Manager Malin for the eloquent framing of the issue and spoke to “The Study for American Progress, Quantitative Analysis of Sanctuary Policies and Crime And The Economy” where the data are clear that crime is lower in sanctuary counties than non sanctuary and they are more economically viable.
- A resident spoke to the fact deportation has a huge economic cost, financially and emotionally. He spoke to the four reasons Salinas voted no and said 5 things the City Could do in 30 days – 1) educate and inform the public on rights and responsibilities 2) start a 10 point immigration policy right 3) protection of confidential information 4) designate safe haven zones 5) maximize community partnerships.
- A resident voiced his opinion, and supported Seaside becoming a Sanctuary City. He believes a lot of panic has arisen believing that their families will be torn apart, and does not believe people should not live in fear of deportation.
- A resident urged the Council to unequivocally reject the executive order, declare autonomy and declare Seaside Sanctuary City.
- A resident thanked the Council for this public discussion and in support of the policies or procedures and questioned what can be done to help make the residents citizens.
- A resident and student spoke in support of Seaside PD and encouraged not separating families.
- A resident encouraged affirmation of the City operations by formalizing the process to assure families security that the City cares for them.
- A resident spoke to his tour in Iraq and the fact we are all the same. To cut the pursuit of happiness short for some is not fair. Assistant pastor for a local church and is working for the families and supports the idea of Sanctuary City status in seaside.
- A resident spoke to encouraging people to come and tell their story, told her story of coming when she was 14, and because of the amnesty of 1989 she was eligible to be documented. She spoke to her family members who live in fear. She requested considering voting yes.
- A resident spoke to this being a beautiful movement for number of people came out to hear the concerns and share the hope. She does not want to use tax payer money in Seaside to comply with ICE.
- A resident spoke to hear experience of how she came to the community, and now that she has graduated from Berkley, her desire to come back to give back to the community. She is concerned with the policies at the federal government and is fearful for her friends and family and the impacts to young people.
- A resident indicated that this is a very serious issue in his mind as he wants to welcome the legal people into the City of Seaside, legal refugees but also the need to maintain a respect for the Federal, State and City laws. We want it to be known as a city of the rule of law.
- A resident spoke to coming into the country illegally, and is here to speak on behalf of the children. There is a tremendous fear that the children are experiencing as she did when she was a kid. Please have mercy.

- A resident and business owner spoke to his clients continuously telling him how scared they are because of ICE, that they are very afraid to cooperate with any authorities and that numerous clients are providing documents, giving the authority over their children to others in preparation of their deportation.
- A resident spoke to the valuable assets that immigrant workers are in our community. Making America great is sending our kids to the best universities, that will make it great. We cannot be a great county if we don't protect the human rights of the people.
- A resident and local pastor spoke to a situation at the church last week when a police officer arrived at the church and children could not differentiate between an immigration officer or a police officer and there was chaos.
- A resident requested support of becoming a Sanctuary City. We are here to work and make Seaside a better city and we need someone to protect us. We fight for you. She acknowledged Mayor Rubio's Hispanic ethnicity.
- A resident acknowledged the different ethnicities in the room and acknowledged the best parts of the country is being a mix of the nationalities all of which are being targeted, not just Mexicans. All of our ancestors came from somewhere. We need to support each other, we are all here civilized.
- A resident and professor of Political Science spoke in support of declaring Seaside as a sanctuary city, and reiterated the previous speaker that everyone was an immigrant at some point and it is insulting to what is happening, the classification of all immigrants as criminals. The flourishing economy is due to the labor of immigrants. The hospitality industry relies on immigrants. Those in important positions to protect the people and the economy need to protect the immigrants.
- A resident indicated he is honored to have a Hispanic Mayor and is proud to see the City that has this conversation. Seaside is the most diverse community and our mission is the nourishment of that diversity. Every race has to be protected.
- A resident shared that the police are here to help us and shared a personal story where the police helped and encouraged no fear of local law enforcement but that the residents too have to active. If you see something, say something. There is a movement called "Indivisible Monterey Bay" where one can take your frustration into action If you work with them, they will protect you.
- A resident spoke to his mother coming to the US and the reasons she made the sacrifice so her kids had better opportunities. He is now a successful citizen, and he spoke against families being broken up. The acknowledgment would be helpful because there is so much fear and this would alleviate fear and be the voice to help and protect.
- A resident, representing ACLU Monterey Bay Chapter addressed concerns that the Federal funds will be lost from Sanctuary Cities, speaking to two lawsuits filed claiming the executive order is unconstitutional and unenforceable and spoke to the support that it will prevail. She cited previous Supreme Court Decisions that taxing and spending power is granted by congress, and congress has authorized federal funding. The President has no power to withdraw or threaten to withdraw. Don't be deterred or impeded by making seaside a Sanctuary City. If you do, and the EO prevails join Sand Francisco and Santa Clara and resist.

- A resident spoke in support of the City being a sanctuary city. Everyone should feel safe where they live, families will be separated and she does not want that to happen.
- A resident indicated they all very worried about that federal funding, but imagine if all of us have to leave, who would pay taxes? More importantly, children that are impacted, when they grow up will be emotionally impacted.
- A resident indicated she views the community as diverse and safe yet she spoke to her friends and family that are fearful to live and if you want the best for the community, please support this item.
- A resident was concerned that Seaside was considering becoming a Non-sanctuary city. She spoke to the impacts to kids that are separated from parents.
- A resident who is a kindergarten teacher and said she does not want her kids to fear that no one will pick them up after school, they are there to learn.
- A resident spoke in support of her immigrant parents and believes she has many more opportunities than she would have had. Everyone should have the chance to go wherever they feel is the best for their life

Due to the increase of the number of members of the public that were not present for the initial presentation and discussion, Mayor Rubio requested Police Chief Jackson restate his main points of his presentation.

Chief Jackson reiterated the SPD mission, to maintain a safe community. He clarified that the SPD is not responsible for enforcing immigration laws and that to create a safe environment we must establish trust in our community. If you are victim, the SPD can help. They don't have the staffing or resources to enforce immigration issues. SPD officers are not authorized to enforce Federal laws. He reiterated that any work that is done with immigration is for the safety of the community and not for immigration related issues. Mayor Rubio continued accepting public comments.

- A resident spoke to the significant Oaxacan community, and that Latinos are not homogeneous and this community is lovely, they are stand up community members that work hard, support their families and have strong sense of community
- A resident thinks it is important to know that the citizens will be protected by the community. She understand this will not guarantee that this will protect them fully, but it does alleviate fear.
- A resident spoke to research on immigration reform, in NY city, where they were targeting a Latino community. Unite ourselves, by informing ourselves. Information and facts are critical.
- A resident stated the media and political climate is tense and you have a huge population of Mexicans, and politics are common conversation because there are direct impacts. Lives depend on keeping families together. This is our city, please represent us.
- A resident spoke to the love she has for our community, She spoke in support of the City and the PD and asked to please continue providing the help you have been providing to us, in return promises to continue to work hard as community members.
- A community member spoke supporting this cause and believes we deserve an opportunity to be here as we are honorable, hardworking people.

- A resident indicated that her kids need the security and to know that they try to keep the community safe.
- A resident spoke to her nephew who went to the hospital due to a cancerous tumor forcing them to go out otherwise they would not due to fear of the political situation. We ask that you please help us.
- A resident spoke in support to make the city of Seaside a Sanctuary. She spoke to her personal contributions to the community through volunteerism and the City should celebrate their diversity, embrace immigrants and enforce constitutional rights on which this nation was built.
- A resident, we are here not demanding, but asking for support, understanding that we all have to do our part.
- A resident spoke thanking the Council for giving her a certificate of achievement and she spoke to her personal family members that are fearful. She asked directly to become a sanctuary.
- A resident and business owner expressed concern spoke to his personal witnessing the change in behavior of his consumers. Respectfully, He prays that God gives you the wisdom to make the right choice.
- A resident and student, representing Mancha community, spoke in support of becoming a sanctuary city. Please act to protect our citizens and represent the voice of the citizens. The most important politics happen at the local level.
- A resident spoke representing her at-risk friends, who she wants to protect and speak in support of. She told their stories and that they have lived, worked, and paid taxes for more than half of their lives. They work to make themselves better every day.
- A resident spoke to his immigrated parents, and how he is a voting citizen now because of them. We need our immigrants, for the vitality of our economy and our community.
- A resident spoke to why Seaside should be a sanctuary city; Hispanics dedicate their lives as hard working individuals working hospitality and service jobs, and all we are all in fear of where is the immigration authorities located today, they will cancel their work instead of going in fear.
- A resident who teaches English as a Second Language spoke to her positive experiences of teaching for years at night from all different circumstances. Seaside is the GEM of the peninsula. She thanked the Council for being brave enough to do this.
- A resident said thank you for taking the time to be here. Our families are full of fear and our children are afraid to be separated from their parents. This country has given us many opportunities. I believe that all of us can continue working hard and respecting laws of the country. Please support our community just the same as we have supported you.
- A resident thanked the Council for the opportunity to express themselves. Proud to be of Hispanic descendants, who made the sacrifice their origin of place for a better quality of life. She speaks for those she loves and anyone who is in fear.
- A resident spoke to the community and the similar purpose, vision, loyalty. She is a child of an immigrant mother who hoped to give her kids a better life. She spoke to her daughters that are fearful that families can be separated by immigration and it is heartbreaking. She is here to ask the Council to think what our community would look like if having a sanctuary in Seaside would provide to the families of this community

- A resident spoke to all of the Hispanics supporting each other. We came to the country to better ourselves not to be part of gangs. That is why we are asking for our support so the safety comes back to our community.
- A resident said no human being is illegal, and the personal stories of these brave people, they demonstrate that more than he can. Sanctuary Cities as a policy, result in a higher average per capita income, lower crime rate that every community member should support. He spoke to the hallways being packed, people are down the steps, and one thing that strikes him is, one more thing immigrants are bringing to the society around us is an invigoration of our democracy. This is amazing to see the community response with this issue. This is what democracy looks like. He is proud to be here in this group.
- A resident is concerned about all of the immigration police creating fear and insanity and dramatization. He is doing everything he can to be a better citizen and to contribute to the community. He is involved in community programs and spoke to the challenges to try to fit in with different culture and languages. He spoke to the rental market in Seaside, and the owners should see all know that not all Hispanics are criminals. He commits himself to be a better citizen.
- A resident spoke with concern about his family, it is not his responsibility to take care of them, and he is choosing to take the responsibility to take care of them as much as he can. Please help.
- A resident spoke to the effects of Sanctuary Cities on the economy that research indicates that they are safer, stronger economies. Non sanctuary cities make it harder to investigate crimes, because undocumented individuals are in fear of cooperation for fear of deportation. Please understand that policies will improve or deter the growth of our inclusive community .
- A resident is afraid for his community and friends for being deported. He's parents took a risk for a brighter future. He is very grateful for this choice, he has many more opportunities.
- A resident and local Professor spoke to comments from her kids asking her where she and her husband are from prompted by federal discussions of building a wall. She spoke to teaching her kids that the immigrant workers need to be respected.
- A resident spoke to always feeling very safe in this community and the PD has always been there when she needed them, and has enjoyed beautiful experiences, more here than any other city he has lived in.
- A resident spoke to being hard working parents, with children who try their best. He teaches them, by being an example of someone who has not gone to jail. If they don't allow the parents to be here then the children will suffer. We come with great sacrifice, for more opportunity. Please consider all these people, all these petitions and support the declaration of Sanctuary.
- A resident shared her opinion about becoming a Sanctuary City, we need the support of the immigrants and kids need to feel secure, that they're protected, and insulated from hate.

Mayor Rubio thanked the public for there comments and passion acknowledging it is an important issue. He assured the community that their safety is the City's priority.

Council Member Pacheco questioned how long the litigation process might take for the injunction lawsuits to which City Attorney Freeman responded it is difficult to say, but unlikely that it will heard this

year before the Supreme Court. On further questioning Mr. Malin reassured the Council that while federal law enforcement can pursue federal immigration policy anywhere in America, the SPD, while complying with Federal law, they do not pursue immigration related offenses. We are operationally a Sanctuary City now. We are a sanctuary for inclusive values and respect for law. If the City Council wanted to adopt a resolution to that effect, staff would be happy to write it. The City Council discussed the pending litigation, the impact to our community for the loss of federal dollars and the constitutionality of the executive order.

Council Member Jones thanked the passion and the vulnerability for sharing their stories with us. She understands that we cannot stop the federal law enforcement, but what we can do, is make it clear that no public dollars will be spent enforcing immigration issues. Our residents need to know that they are safe and we will not be complicit with letting their rights be infringed upon. Ms. Jones read a statement enforcing her position.

Council Member Campbell agreed with Council Member Jones that this is a priority and also said he does not want to hurt the safety and security of our community for the threat of losing federal dollars. He expressed concern with the term 'sanctuary' as some argue that we give sanctuary to criminals, which we do not as well as the fact we cannot protect residents from the Federal government. He reiterated that what we can do, is direct our staff and officers to not cooperate with immigration enforcement as long as they are not violating the law and supported the idea of a "liberty city" designation, as an example. He closed by saying it is imperative that we find a way that undocumented immigrants feel comfortable reporting crimes, seeking medical attention.

Council Member Alexander spoke to the trust necessary between the Police Department and residents.

Mayor Rubio responded to public comments made and spoke to his own experience with community fear growing up. He spoke to the fear that is being instilled in our culture currently that is unnecessary and that the funds that are at stake are our hard earned tax dollars, given back that support vital services for our community. He agreed that we should craft a resolution that will affirm the operations that we have here in Seaside, that we are not involved in the business of immigration enforcement or deportation. That our goal is to support our residents, not to spite the president.

Meeting adjourned at 10:19 PM.

MEMORANDUM

**City of Seaside
Fire Department**

Date: March 17, 2017
 To: Craig Malin, City Manager
 From: Brian Dempsey, Fire Chief
 Subject: **Weekly Report**

Fire Department Activity Summary from March 10, 2017 through March 16, 2017

Date	Description

Subject: Barbeque at Laguna Grande Park Lakeside Picnic Area

FYI - The barbeques at Laguna Grande Lakeside picnic area near City Hall were refurbished. Staff coated the bottom portion of the bricks with *State Parks Brown* paint, our standard color for parks which makes graffiti abatement standardized. The interior fire bricks and top cap bricks were replaced. The supports for the grill were replaced, new expanded metal was installed for the cooking surface and a lock to keep the grill locked in the upright position (in the past, transients would lower the grill level with the surface around the grill and start fires on it. Fires directly on the grill distorts and melts the metal grill). The sink was removed because it was not ADA-compliant. If needed, it can be reinstalled once funding becomes available.

The grill will be unlocked by Public Works when a barbeque reservation form is completed.

Seaside PAL Basketball Banquet

Date: Friday, April 14th

Location: Embassy Suites Ballroom, 1441 Canyon Del Rey Blvd, Seaside

Doors Open: 5:30pm

Dinner: 6:30pm
